

OFFICIAL PRESS RELEASE NIGERIA

IRAUN

Speech: Diploma Presentation Nigeria.

I would like to thank her Excellency the respected Honorary Chairman Dr. Jupaka Madhavi for envisioning this glorious event on this day.

My Dear attending colleagues, and the great people of Nigeria. I would like to thank you personally, and behalf our Senior Executive Board Director the Honorary Dr. Javid Allan Myint, for your esteemed presence. In attending this event as part of the Chamber of Inter Commerce at the International Royal Academy of the United Nations.

Our exclusive Academy stems from a foundation rooted nearly 50 years ago by his Excellency the Honorable Prince Michael Dmitrivich Kelly Romanov, to create what is now established as the International Royal Academy of the United Nations along with myself as its co- founder, Dr. Duke Alexander Mathew Sokolinsky. The Academy was created for the unification of humanity through the engagement of affluent like minded people to enhance the knowledge and well being of its global citizens through, science, technology, medicine, arts, commerce and philanthropy.

The objective of the academy is to develop a global organisation of exclusive members of society, from high levels of commerce and industry to work together in creating sustainable projects, and assisting one another, in the global developments for nations and for mankind.

Our members include dignitaries, heads of state, high officials, multinational commerce leaders, along with esteemed professionals in industry from all sectors of the economic platform. Our members can be found in every continent, and nearly every country. All members, working internally together and with dignity, integrity and cohesion to create mutual success, and for the success of their countries, and their citizens. It is our responsibility, as the International Royal Academy of the United Nations, along with the Chamber of Inter Commerce to make a difference and a positive change in all that it enables to embrace.

I am humbled, to see so many esteemed individuals invited here by our members with the interest to be an integral part of the academy. We welcome those who are the essence of the culture, and thinking of the Academy to join us, and help us, in our mission to better the humanity and economics of this globe.

May God bless this country and bless its inhabitants in all.

Hon. Dr. Duke Alexander Mathew Sokolinsky
